# Professional Development Workshops for all health, social care and education sector staff

This series of workshops aims to:

- Deliver learning opportunities to people working in support roles in health, social care and education.
- Provide an opportunity for continuing professional development.
- Promote understanding of these support roles, their limitations and boundaries in the present climate of financial cuts.
- Improve practice by increasing knowledge and understanding of topical issues facing the three sectors.

Choose from the following Professional Development Workshops:

- Disability awareness
- Introduction to the autism spectrum
- Support for staff dealing with death and dying
- Dementia awareness
- Dealing with challenging behaviour in the workplace
- Introduction to leadership skills
- Speed reading, mind mapping and study skills
- Assertiveness and confidence building
- Safe use of social media (Morning session)
- Safe use of social media (Afternoon session)
